About

I am a passionate and driven programmer who has been developing games through real-time computer graphics technology. I have a strong foundation in problem-solving skills and have gained excellent communication and teamwork abilities through various roles. Additionally, I strive to bring initiative and creativity to my team.

I run an educational YouTube channel with the hope of making complex game programming easier to learn and contributing to diverse game development in South Korea.

Skills

Unreal / Unity | DirectX 11 / 12
C++ / C# | Network

Professional Experience

Krafton (inZOI Studio)

Oz Intermedia

Neorock

Dave Studio

Neople

Education

Korea Open University

2013.03 - 2025.02

Bachelor's Degree in Computer Science | Graduate

Awards

Silver Award | Korea Open University

Software Competition

Indie Game Fast Track Award | Seoul Business Agency

Development cost support and marketing

Portfolio

Game projects, custom engines, and programming lectures

YamYamEngine
